SELECTED BIBLIOGRAPHY ON REVENUE SHARING

by

Don Levitan, Ph. D.
Director of Community Development
Newton, Massachusetts

On October 20, 1972 at Independence Hall Public Law 92-512, 86 Stat. 919, was born! This Act "...to provide fiscal assistance to State and local governments..." has popularly become known as the General Revenue Sharing Act. What was concluded in Philadelphia on that fall day when President Nixon signed it into law was the product of the hard work of many persons. The concept of tax sharing was not materialized for the New Federalism, it has roots in the mid-19th Century. The present concept owes much to Walter W. Heller and Joseph Pechman who, in the early 1960's co-chaired a Presidential Task Force to examine further the concepts of revenue sharing. The concept, today, has been expanded to include six proposed programs of categorical grant consolidation called Special Revenue Sharing.

Primary emphasis in this bibliography is on the subject of General Revenue Sharing. Scant attention is given over to the proposed as well as pending Special Revenue Sharing legislation.

In constructing the following bibliography three guides were followed: first, the approach was cosmopolitan and thus those writings which were parochial were not included. That is, those works which really pertained to a particular local jurisdiction were not included. Second, several authors who have written quite prolifically on the subject do not have all their works included; their works were scanned and a determination was made to eliminate minor and/or repetitious works--thus only what is considered the more significant works of any and all authors is included in the following listing. Lastly, with minor exception, newspaper articles

have not been included. An examination of articles and editorials in several of the major papers indicated a great deal of repetition with little being added to warrant their inclusion in this bibliography. However, the interested reader may want to explore this further and is advised to examine the indices of the New York Times, Christian Science Monitor, as well as the Wall Street Journal.
